CASE

Knowledge Platform

Success through cooperation

This project is financed by the Erasmus+ Programme

www.case-ka.eu

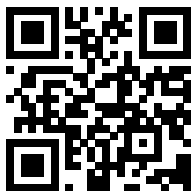

Visit our Knowledge Platform

After 3 years researching **competencies for sustainable development** and the best methods to achieve them, we found that **cooperation among universities and practitioners** is a key element to assure successful learning experiences.

Thus, **cooperation** is our core value. At the Knowledge Platform we provide insights on how you can make the best out of cooperative learning settings. Get to know our **good practices** and the **materials and tools** we use.

Visit the platform at
<https://www.case-ka.eu>

Inspiring good practices

Service Learning

Learning through civil **society engagement** by collectively tackling practical challenges.

Sustainability Screening

A case study allowing student groups to **evaluate the sustainability performance** of a company.

Entrepreneurial Projects

Mutual learning experiences of entrepreneurial students within a course.

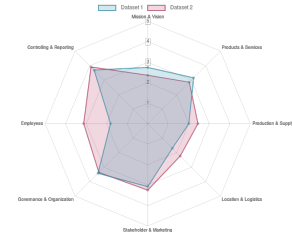

Other cooperation formats

Internship – Excursion – Participatory Research Project – Field Trip – Case Study – Guest Lecture

Supportive Material and Tools

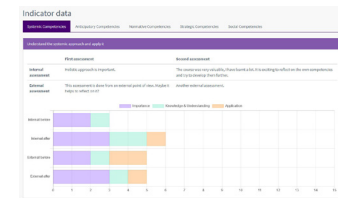

Sustainability Performance Tool

A qualitative tool for **recording and developing sustainability** in companies and non-profit organizations.

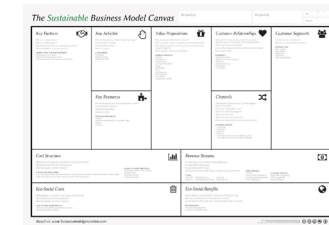

Sustainability Competencies Tool

A tool to **make individual competencies** for sustainable development **visible** and to **support further development**.

Sustainable Business Model Canvas

Integrating social and ecological dimensions into the core business. Based on the successful Business Model Canvas.

Other tools

Diaries – Reflection Templates – Certificates – Agreements & Contracts
